Date: PLACEHOLDER-DATE

Author: LaTeX Toolkit Release Process

Purpose

This document attests to the software versions, checksums, and download URLs for external binaries used by the LaTeX Toolkit at the time of release. This provides traceability and verification capability for security-conscious environments.

Software Inventory

The following external software is used by this toolkit:

Software	Version	Checksum (SHA256)	Download URL
PdfSigner.exe	PDFSIGNER-VERSION	PDFSIGNER-CHECKSUM	PDFSIGNER-URL

Checksum Verification

To verify the integrity of downloaded software:

```
Windows PowerShell Get-FileHash -Algorithm SHA256 PdfSigner.exe
```

Compare the output against the checksums documented above.

Source Repository

PdfSigner: https://github.com/brucedombrowski/PDFSigner

Verification

This attestation documents the software versions and checksums at the time of generation. To verify:

1. Compare the documented checksums against the actual files

2. Verify the digital signature on this PDF (if signed)

3. Confirm the download URLs match official release sources

Attestation

I hereby attest that the information documented above is accurate and complete to the best of my knowledge as of the date specified.
